

WE³

FALL / WINTER 2011

If music is what feeling sounds like then clothing is what those feelings wear. It is the perception of our feelings that drives our desires. We3 Designs strives to offer pieces that connect strongly to the desires in each woman.

Drawing on the bond of music and fashion and our own personal connections with music and its place in all three of our hearts us three at We3 designs present our F/W11 collection. 24 pieces strong and filled with detail, structure and controlled volume.

Introducing new styles – 2 pairs of pants,

MUSIC IS WHAT FEELING SOUNDS LIKE

- AUTHOR UNKNOWN

2 blouses, a long skirt and a most beautiful wool coat. Departing from our foundation of all knits, we have included 3 woven fabrics to balance our collection.

If you are a devotee of our knits and essentials, not to worry, there is still plenty on offer. In fact we are also introducing a secondary fabric choice for our essentials: Superfine Merino Wool for your higher end customer's needs.

We3 Designs is *louder than words*. Low impact and high style so you can tread lightly while you live large.
